SHARE CLASS E GBP AS OF SEPTEMBER 2024

### Investment Objective

The investment objective of the Fund is to closely match the risk and return characteristics of the MSCI World Custom ESG Climate Series A Index (the "Index") with net dividends reinvested.

The Fund invests in equities (that is, shares and other similar kinds of assets) issued by or relating to companies included in the Index. Target Market: This Fund is appropriate for investors who plan to invest over the medium to long term; and are looking for a passively managed investment. This Fund may be appropriate for investors who seek a Fund which features tax transparency.

The Index is calculated and screened by MSCI based on predetermined and objective environmental, social and governance (ESG) criteria chosen by the Investment Manager which (i) excludes certain companies not considered to meet sustainability principles, (ii) excludes certain companies with heavy exposure to carbon; and (iii) increases exposure, when compared to the MSCI World Index (Parent Index), to companies deriving revenue from climate-friendly or focused (Green) products or services and which have a robust carbon reduction strategy.

The Index additionally excludes companies not considered to meet socially responsible principles identified by applying criteria that refer to the UN Global Compact ten principles, as well as other ESG criteria selected by the Investment Manager.
