GLOBAL HIGH YIELD ESG BOND INDEX FUND

Marketing Communication
PASSIVE FIXED INCOME

SHARE CLASS G EUR AS OF SEPTEMBER 2024

Investment Objective

The investment objective of the Fund is to track the risk and return characteristics of the ICE BofAML Global High Yield Index (the "Index") subject to certain environmental, social and governance (ESG) exclusions and ESG weightings.

The Fund invests primarily in freely transferable Debt and Debt Related Securities and below investment grade corporate debt instruments that are constituents of the Index. The Fund may invest more than 30% in below investment grade bonds. The Fund may also invest in either investment grade or below investment grade corporate debt issued by corporates that is not included in the Index that are deemed by the Investment Manager to exhibit similar characteristics to securities in the Index and that have a similar risk profile.

Target Market: This Fund is appropriate for investors who plan to invest over the medium to long term; and are looking for a passively managed investment in the relevant market(s) with Environmental, Social and Governance (ESG) principles implemented according to a defined set of exclusions as well as assessment of ESG ratings.

The index is a custom index which corresponds with the ICE BofAML Global High Yield Index with the exclusion of securities that do not meet socially responsible principles identified by applying criteria that refer to the toUN's Global Compact Ten Principles, as well as other ESG criteria selected by the investment manager.

RISK WARNINGS

Credit Risk – A borrower or a counterparty may fail to repay or otherwise fail to meet contractual obligations to the Fund.

Liquidity Risk – Some recognised exchanges are less liquid or more volatile which may affect the price received and time taken when selling investments. Small capitalisation companies are also less liquid and this may result in fluctuations in the price of shares.

Investment Risk - The Fund may not achieve its investment objective. An investment in the Fund involves investment risks including possible loss of the amount invested.

Counterparty Risk – In case of bankruptcy of the broker, there is no guarantee collateral held by the broker will be returned to the Fund. In the event of bankruptcy of the counterparty, the premium and any unrealised gains may be lost.

Issuer Risk – The issuer of a bond held within the Fund may not be able to meet its obligations to the Fund.

Derivative Risk - Derivatives may result in gains or losses that are greater than the original amount invested.

Valuation Risk - A position in the Fund may be valued incorrectly, as some prices may be uncertain at a point in time.

Currency Risk - Where a class of shares are in a currency other than the base currency of the Fund, the non-base share classes of the Fund may be affected unfavourably by fluctuations in currency rates.

Political Risks - The performance of the Fund may be affected by changes in economic and market conditions due to political developments and changes in government policies.

CARBON DATA METRICS

Carbon footprint of the index constituents versus parent

Potential carbon emissions are emissions of fossil fuel companies that can be potentially released should all the fossil fuel reserves they own be extracted. This field represents the potential carbon emissions of the fossil fuel reserves owned by a company using a formula from the Potsdam Institute for Climate Impact research. Carbon intensity represents the company's most recently reported or estimated Direct (fuel combustion, company vehicles) and Indirect (purchased electricity heat and steam) greenhouse gas emissions.

ADVOCACY DATA

Advocacy data is updated on a quarterly basis capturing the previous 3 months engagement activity. For more information on our engagement, please read our quarterly engagement reporting at northerntrust.com/engagement. Engagement undertaken by Hermes EOS on behalf of Northern Trust.
